Charges By Bevin To Be Answered Vishinsky Says

Head Of U. N. O. Russian Delegation To Make Extended Reply To British Charges

GREECE IS CENTER OF UNO ARGUMENT (BULLETIN)

LONDON, Feb. 4.—(INS)—Andrei Y. Vishinsky, head of the Russian delegation to the UNO, told the security council today he intends to take part piece-meal British charges that Soviet propaganda against Britain is a danger to the world.

As the council resumed deliberations of the delicate Greek situation in an atmosphere supercharged with expectancy, Australian delegate N. M. O. Makin called upon Vishinsky.

The Soviet Vice Foreign Minister rose and announced he proposes to discuss statements made Friday by British Foreign Secretary Ernest Bevin, Vishinsky declared.

"One of the main features was the careless way Bevin dealt with the facts."

To Sum Up Situation Vishinsky said he proposed "to sum up the situation again, placing the facts in their true perspective. He then proceeded to attack Bevin's statement that Russia always brought up the Greek question as a counter-attack against Britain when the Polish and Romanian situations were under discussion."

Russia has demanded the withdrawal from Greece of British troops, and this has been opposed by the London government on the grounds that the forces are there with permission of the Athens officials for the purpose of assuring order.

PA NEW OBSERVES

Apparently local groundhogs did not venture out of their winter quarters on Saturday, for no reports have as yet reached Pa. News of any being seen outside the hibernation quarters on that date.

Winter traffic conditions apparently have been taking toll of the stone pillars that surround the public square. Two of the large pillars have been broken off as a result of being struck by automotive vehicles recently.

If your radio is acting up at night, blame the interference on the sun. According to the Hayden Planetarium in New York City, two spots have appeared on the upper right hand edge of the sun, which are visible to the naked eye. The unusual condition may cause a brilliant display of northern lights (Aurora Borealis) while they appear on the sun.

New Record For Flight New York To London

By LT. COL. ED ALLEN
U. S. Aviation Writer

HURN AIRPORT, England, Feb. 4.—A new record for commercial flights across the Atlantic was set today when a four-engine Constellation of Pan American World Airways put down at London's Hurn Airport.

The big ship made London from New York's LaGuardia Field in 12 hours and 49 minutes of elapsed flying time, clipping one hour and 13 minutes from the previous trans-Atlantic flight record.

Total elapsed time for the flight was 15 hours and 32 minutes. There were two lengthy stops for thorough checkups at the Gander, N. F., and Shannon, Eire, airports.

Bad weather with an off-beam headwind was encountered from New York to Gander and the Constellation went to 17,300 feet to escape it.

The Constellation made an average speed of 316 miles an hour and hit a top speed of 335 miles an hour. Twenty-nine passengers, including two youngsters who slept calmly throughout, were aboard on the record-breaking flight. The ship also carried a ton of freight.

Youth Dies In Coraopolis Fire

Mother And Two Sisters Injured In Blaze That Destroys Home

PITTSBURGH, Feb. 4.—(INS)—A teen age youth was burned to death and his mother and two sisters injured today in a fire that destroyed their home near Coraopolis.

William Nester, 16, a high school sophomore, was trapped in a front bedroom when the raging flames blocked off the stairway in the two-story frame building. Five other members of the family leaped to safety from a second-floor window.

Mother Breaks Legs The mother, Mrs. Edna Nester, 50, broke both legs when she jumped. Her two daughters—Mrs. Evelyn Atkinson, 25, and Jane, 20—suffered burns about the head and face.

Mrs. Atkinson's husband, Gilbert, 26, saved his son, Darrel, 7, by throwing him from the window before jumping himself.

Mrs. Nester's second son, Edward, 27, and his wife, Pearl, 24, and their two children escaped from their first floor apartment.

The family moved to the Pittsburgh area from Mississippi three years ago.

German Warship Being Prepared For A Bomb Test

Cruiser Prinz Eugen Being Groomed For Guinea-Pig Role In Pacific Tests

PHILADELPHIA, Feb. 4.—(INS)—American army personnel today began grooming the 10,500-ton ex-German cruiser Prinz Eugen for her guinea-pig role in the atomic bomb tests in the Pacific next May.

The 692-foot long Eugen, granted to the U. S. by the tripartite naval commission, docked at the Philadelphia naval base following a 600-mile nautical and operational test cruise from Boston. She arrived in the United States January 23 from Bremerhaven, Germany.

On the trip from Boston, the Eugen was a floating laboratory for experts from the U. S. navy bureau of ships and ordnance and civilians representing American steel, shipbuilding, munitions and engineering firms.

From the data gleaned by these observers, the navy department will determine whether further tests of the Eugen's structure and guns will be needed.

The navy will take off some of the vessel's eight-inch and 4.1-inch guns, which observers aboard saw in action enroute from Boston.

Secretary Byrnes May Reveal Yalta Secret Agreement

Expect Agreement Text Will Give Reason For Russia Getting Islands

WASHINGTON, Feb. 4.—(INS)—Secretary of State James F. Byrnes today was expected to obtain authority to make public before next week end the "top secret" Yalta agreement whereby the Kurile Islands and Sakhalin were given to Russia.

Speculation centered on whether the agreement would reveal that Russia exacted the Anglo-American commitment, honoring its claims to the strategic areas as a price for entry into the Far Eastern War.

Observers were inclined to believe that, if this were the case, the bargaining would not appear in the document. Many doubted that such a price was set since the most informed had always felt that Russia would enter the war against Japan when Hitler was defeated.

Hitler Already Near Defeat Moreover, it was pointed out, at the time of the agreement Hitler was already near defeat and the Western Allies were so self-confident of their power in the Pacific that they would not have paid any price for Russian aid.

At the time of Yalta conference, in February, less than a year ago, some anti-Soviet elements in the United States expressed the opinion that the Allies did not want Russian aid in the Far East. Observers now think that President Roosevelt and

Tugboat And Motor Barge Workers In New York Strike

Water-Borne Shipments Of Fuel And Food For City Come To Halt Today

NEW YORK, Feb. 4.—(INS)—Water-borne shipments of fuel and food for the teeming New York area came virtually to a halt today when 3,500 workers on 400 tugboats and motor barges went on strike.

Leaders of local 333, United Maritime Division, International Longshoremen's Association, AFL, said the crew began tying up vessels at 12:01 a. m. as planned.

Union officials predicted that the walkout would be "completely effective" before midnight. They said no picketing has been scheduled "except where operators try to move cargoes."

City officials who are frankly worried at the possibilities of the strike planned to bring this morning's attempts to bring it to a speedy end.

Edward C. Maguire, Mayor O'Dwyer's labor adviser, will confer with union leaders at city hall, then with the employers' wage adjustment committee of the harbor authority of the port of New York.

Maguire said he fears paralysis of ship traffic in New York harbor today, and critical food and fuel shortages if the walkout is prolonged.

Union spokesmen said they have called a membership meeting for this afternoon. Strike technique will be discussed, as well as any solution the mayor's representatives may offer.

Union demands are for a 40-hour week instead of the prevailing 48 hours with hourly wage adjustments upwards.

Convent Burns In Cleveland

Priest And Nuns Escape Uninjured—Second Major Fire In Three Days

CLEVELAND, Feb. 4.—(INS)—Sixty-eight nuns and a priest escaped uninjured today when fire destroyed a convent in Cleveland's east side.

At 8:30 a. m. fourth alarm was sounded, bringing out several additional fire companies to assist nearly a dozen already on the scene. Efforts of firemen were being directed to prevent the spread of the blaze to adjoining church buildings.

A report from the scene indicated the two-story frame structure, in which the fire was raging probably, would burn to the ground.

Started in Attic The fire broke out during mass in a part of Villa Angela academy formerly used as a boarding school for boys. Firemen said the blaze started in the attic.

The burning building included a convent for nuns.

Next Steel Strike Move Is Expected At Washington

Pittsburgh Area Steel Leaders Believe Strike Showdown Is Now Nearing

PRICE OF STEEL SEEMS BIG ISSUE

By JAMES L. KILGALLEN
U. S. Staff Correspondent

PITTSBURGH, Feb. 4.—The next move to settle the nation-wide strike of 750,000 steel workers was expected today to come from the White House soon.

A showdown was nearing. The issues have been thoroughly thrashed out and the nub of the dispute has come to the question:

"How much of an increase will the government allow in the price of basic steel?"

Front Is Peaceful The situation along the strike front meanwhile remained peaceful. Strikers marked time, picketing in an orderly manner while at the same time keeping an eye peeled on Washington for developments.

The strike—entering its third week today—continued virtually 100 per cent effective. The big steel plants were closed and business in Allied industries was growing steadily worse.

Layoffs of workers in industries dependent on steel were increasing and American reconversion program was sunk deeper in the mire.

President Truman was reported to have directed Reconstruction Chief John W. Snyder and Price Administrator Chester Bowles to get together on a new price-wage policy without delay.

It is assumed the President is eager to bring about a settlement of the steel struggle before he makes his projected vacation trip to Florida.

President Truman has suggested a pay increase of 18 1/2 cents for steel workers.

But before U. S. Steel will boost the ante over the 15 cents an hour offered, the company wants assurances (Continued on Page Two)

Trainmaster Of B & O Honored

Testimonial Tribute Given To Charles R. Richards By B & O Associates

In the family records he is listed as Charles H. Richards. For the past four years the Baltimore and Ohio Railroad listed him as Testimonial Trainmaster at New Castle Junction. But Saturday night in the Castleton hotel he was "Chuck" Richards and about 175 of his associates held a testimonial dinner for him that he will remember long after his new title of Trainmaster, Pittsburgh Division gets the shine rubbed off.

It was one of those testimonials that revive your faith in human nature. For a couple of hours the railroaders listened to some happy addresses, enjoyed a good dinner and sent everybody home with a glow of satisfaction.

Superintendent Is Toastmaster For the toastmaster the committee in charge, elected C. T. Williams, division superintendent of the Akron Division, Chairman James W. De Lawrence introduced Mr. Williams and he took it from there. There were quite a lot of speeches, some of them long and all of them adding a little to the occasion.

Among those who spoke were: T. E. Johnson, assistant superintendent of Pittsburgh; John Garner, chief dispatcher; A. E. McCafferty, general foreman; New Castle, C. C. Davis, general car foreman; J. W. Riggins, track supervisor; S. H. Rhodes, agent; S. A. O'Neill, the new territory agent.

Citizens Protest Action By UNO For Permanent Site

NEW YORK, Feb. 4.—(INS)—Residents of the New York-Connecticut border area recommended by the UNO's site inspection committee as a home for the world organization, united today on the slogan "No to the UNO."

Homeowners and lessees of scarce dwellings in the area spent a week-end of conferences, town meetings and indignation gatherings aimed at forestalling "eviction."

They outspokenly did not like the idea of becoming part of the new world capital so doing meant leaving snug and, in some instances, historic homes.

The inspection committee flew back to London yesterday to present its report before the UNO's general assembly.

House Prepares To Vote On Labor Bill

WASHINGTON, Feb. 4.—(INS)—A strong move was underway today in Republican ranks to soften the stringent Case anti-strike bill as the house prepared to vote this afternoon on labor legislation.

Every indication pointed to house passage of an amended version of the Case bill, although prominent members were loathe to make predictions. No final vote is anticipated before late tomorrow or Wednesday.

Strong Coalition The bill introduced by Rep. Case (R-S. D.) is being backed by a strong coalition of Republicans and

southern Democrats as a substitute for the president's fact-finding legislation.

Reports that the Democratic leadership secretly hoped the Case bill would pass—confident that it would never become law—created uneasiness in Republican circles. The Democratic strategy was said to be the Case bill as a vehicle in the forthcoming 1946 congressional elections to tag the Republicans as "anti-labor."

Republican leaders were further perturbed by the fact that some GOP members, those with considerable steel industry connections, were

Gen. Yamashita's Hundreds Of G. I. Brides Sail For New Homes In U.S.

WASHINGTON, Feb. 4.—(INS)—The Supreme Court today denied the appeal of Japanese General Tomoyuki Yamashita who was convicted and sentenced to hang for atrocities committed by his troops in the Philippines.

ABOARD THE S. S. QUEEN MARY AT SEA, Feb. 4.—The giant luxury liner Queen Mary sailed from Southampton with the noon tide today braving high seas and expected gales to bring hundreds of G. I. brides and their babies to the United States.

Only a handful of friends and relatives stood in the pouring rain to see the vessel and the brides off. Yesterday a huge throng was on hand when the sailing was cancelled because of bad weather.

Stormy Seas Ahead Officials said that if conditions became too bad, the "Queen" would anchor to avoid being blown on the sand banks. It was generally believed, however, that once the vessel got under way she would continue her voyage.

The brides were warned of the stormy seas ahead and told to keep special watch over their babies. Out of that precaution they were told there was nothing to worry about.

Before the ship sailed the brides were assembled in the main lounge and given a talk on life in the United States.

The brides were divided into groups bound for the same states so that women headed for the same sections of the country might become acquainted.

American immigration officials began the weary task of processing the brides and babies so that embarkation could proceed smoothly when the Queen Mary docks in New York.

The officials registered 2,347 women and children. Twelve baby brides reached the Queen Mary yesterday.

For the negotiators have eliminated most of the important contract issues with the exception of wages and according to Dewey, "are ready now for serious negotiating."

Walter P. Reuther, the UAW-CIO international vice president who heads the union team in the conferences, told President Truman in a week-end telegram:

"With Ford and Chrysler corporation contracts already agreed upon, Reuther appears confident that GM's offer, when it comes, will be for 19 1/2 cents an hour."

But the union leader now is fighting hard to keep GM from winning a possible price increase on its products. His telegram to the President also said:

Industry spokesmen by steel and General Motors corporation, determined to hijack the American people and American government into accepting unjustified price increases that would provide the most outrageous profits in history."

Argentina Docks In New York Today

NEW YORK, Feb. 4.—(INS)—The liner Argentina, first of 13 "bride ships" scheduled to "bring home" more than 65,000 wives and children of American veterans during the next few weeks, docked in New York today for the greatest mass "family reunion" ever held.

There were 453 British war brides and 173 babies aboard the Argentina when she reached her North River pier on this bright, cold wintry morning. Four Army tugs berthed the huge 30,000-ton vessel because of the commercial tugboat strike in New York harbor.

Schwellenbach And Murray At White House

Confer With President Truman During Morning On Steel Strike Situation

SEEKING BREAK IN HUGE STEEL STRIKE (BULLETIN)

WASHINGTON, Feb. 4.—(INS)—The administration's all-out drive to settle the 15-day-old steel strike got underway today in the first of a series of conferences of labor, industry and government officials with President Truman.

The chief executive, apparently trying to end the walkout of 750,000 steelworkers before his scheduled Florida trip next week-end, conferred for half an hour with CIO President Philip Murray and Secretary of Labor Lewis B. Schwellenbach.

WASHINGTON, Feb. 4.—(INS)—President Truman discussed the steel strike this morning with Philip Murray, chief of the CIO union strikers, and Secretary of Labor Lewis Schwellenbach.

Murray and Schwellenbach were called to the White House at 9:30 a. m. EST.

They were with the president for about a half hour.

Questioned by reporters as he left the executive mansion Murray said that Mr. Truman asked him to come to the White House to discuss the steel strike situation. He added:

"Unfortunately, I cannot say anything about our meeting. Washington has not to be said must come from him 'the president'."

Forever Optimistic Asked if he was optimistic about an early settlement of the steel strike, Murray replied with a smile:

"I'm forever optimistic." Schwellenbach left the White House with Murray and heard Murray's exchange with reporters. All the secretary could say was:

"You can see we came out smiling."

They left the grounds together.

Spokesmen for the U. S. Steel Corp. said they knew of no plans for Benjamin Fairless, steel company president, to see Mr. Truman today.

Fairless represented the steel companies in the wage discussions with the union and, later at the three-day conference with the president.

Probe Series Of Fires In Congress Hotel In Chicago

CHICAGO, Feb. 4.—(INS)—A police arson squad today was investigating a series of fires in Chicago's historic Congress Hotel, in which one man was killed, 12 others persons injured and nearly 1,000 guests twice routed from their rooms.

The four fires occurred within a period of 11 hours.

Fire Marshal Anthony J. Mulvaney said he was "suspicious" of circumstances surrounding the fires which did an estimated \$50,000 damage to the hotel. He ordered an immediate investigation.

The dead man identified as Frank Van Hoesen, Rochester, N. Y. body was found in his fifth floor room after the third blaze. Police said he died of suffocation.

Police were seeking a man who checked out of the hotel hall an hour before the last fire started in the room he occupied.

Latest Soviet Move To Extend Control Is Seen

Seizure Of Austrian Shipping Interests On Danube River Reported

VIENNA, Feb. 4.—(INS)—Russian seizure of Austrian shipping interests on the Danube was viewed in Vienna today as the latest Soviet move to extend Moscow's economic control over eastern Europe.

The Russian move was embodied in a demand to Austrian Foreign Minister Karl Gruber late Saturday afternoon—after business hours—that the shipping interests be incorporated immediately into a half-Russian-owned operating company.

This action was almost exactly similar to a previous Red attempt to take half the shares in Austria's Zistersdorf oilfields.

Proposed Treaty Dropped

When world publicity exposed this unilateral maneuver, the proposed oil treaty was dropped, but Russian military occupation of the oilfields with seizure of their entire production was immediately enforced.

At present Austria's Danube Steamship company, among the largest on the river, remains the only important river shipping operation not incorporated within the network of Russian-controlled companies already formed in Hungary, Romania, Yugoslavia, and Bulgaria with similar pressure being asserted toward Czechoslovakia.

The line's ownership dates back to 1829 and its equipment includes more than 100 pre-war vessels. Allied observers see this latest unilateral Moscow action as part of a growing Russian policy to control eastern Europe economically because of the utter failure of the Communists to gain power in the recently-held free election in Austria.

Funeral Tuesday For Mrs. E. Newell

Funeral services for Mrs. Clara Pearl Newell of North Sewickley township, Beaver Falls, Pa., will be conducted Tuesday afternoon at 2 o'clock from the Orville Scott funeral home, Beaver Falls, according to word received here by friends.

Mrs. Newell, wife of E. Frank Newell, died Sunday morning in the Beaver Valley General Hospital, New Brighton.

Survivors in addition to her husband include two sons, S. L. Howard and P. Newell and Everett; William Newell at home; ten daughters, Mrs. Warren Powell, Marion township; Mrs. Henry MacGee, Ellwood City; Mrs. Samuel Miller and Mrs. John Phillips, both of Beaver Falls; Mrs. John Costill, Akron, O.; Mrs. Charles Carvie, West Mayfield; Mrs. Joseph Castelli, North Sewickley township; Shirley Jean and Anna L. Newell, both at home and Mrs. Frank Paetzle, Erie.

Burial will take place in Sylvania Hills Memorial Park.

Friends are being received at the funeral home this evening.

NEXT STEEL STRIKE MOVE IS EXPECTED AT WASHINGTON

ances from the government that the price of steel will be jumped higher, than previously indicated. Signs pointed toward a government-approved price increase of more than \$4 a ton aimed at breaking the deadlock.

Bowles has been represented as contending that a \$2.50 price increase was enough for the steel industry.

But Irving S. Olds, chairman of the board of the U. S. Steel corporation, took a sharply divergent viewpoint.

Olds said the increase would have to be more than \$6.25 a ton if the 1947 cent wage boost demand is to be met.

There the issue hangs.

Murray In Washington

Philip Murray, president of CIO and head of the Steel Workers Union, is staying in Washington to see what will happen.

It is presumed that Benjamin F. Fairless, president of U. S. Steel, is also within easy reach of the White House.

Both Murray and Fairless could be brought together for discussion if the government can come up with a concrete offer that might pave the way for a settlement of the strike.

It also has been reported that President Truman is prepared to hold conferences this week with industrial leaders outside the government as well as his own top advisers.

The public generally patiently awaited developments.

HOUSE PREPARES TO VOTE ON LABOR BILL

(Continued from Page One)

able labor votes in their districts, were put "on the spot" by the case bill. There are estimates that as many as 25 to 40 Republicans might oppose the case measure unless it were drastically amended.

Strong Support

It was therefore expected that strong Republican support would be thrown behind at least these two amendments: one, removing from the bill court authority to issue injunctions in labor disputes, and a second modifying the ban on foremen's unions to exempt supervisory employees chosen by "productive" workers.

Meanwhile, numerous substitutes and scores of amendments were being prepared for submission to the house, some of them designed to put more "teeth" in the case bill others to soften it, and still others aimed merely at strengthening existing government conciliation and mediation machinery.

The case bill establishes a federal mediation board, bans violent picketing, forbids boycotts, bars recognition of foremen's unions, authorizes issuance of court injunctions in labor disputes, and permits civil suits for damages against labor unions.

Charges by Bevin To Be Answered Vishinsky Says

(Continued from Page One)

unity. Vishinsky declared that at the foreign ministers meeting at Berlin last July 20th, Soviet Foreign Commissar V. M. Molotov called attention to "a dangerous situation" in Greece.

At that time, Vishinsky went on his superior urged that the Greek government be asked to form a democratic government with the utmost speed.

Vishinsky added pointedly: "Bevin now calls this a counter-attack."

"This may correspond to the funny ideas Bevin may have regarding attacks and counter-attacks."

The Russian spokesman said that Bevin's contention that "whenever we discuss Poland, Bulgaria and Romania, Molotov brings out a king and the British then claim they pull out an ace" is not exactly correct.

Vishinsky told the council that the British foreign secretary "does not hesitate to place all the guilt on the Greek communists." He then added:

"The Greek communists can speak for themselves, and I will deal with that too."

Vishinsky then proceeded vigorously to attack British sources of information regarding events in Greece.

London, Feb. 4.—Andrei Y. Vishinsky, chief Russian delegate to the U.N.O., denied today that Communist propaganda from Moscow is a menace to the peace of the world.

Actually, Vishinsky charged, the presence of British troops in Greece is a danger to peace.

In answer to such charges by British Foreign Secretary Ernest Bevin, Vishinsky said:

"I must say it is the opinion of the Soviet delegation that nothing more erroneous could have been said than this."

The islands would not prove very valuable to the United States or Britain. Geographically and strategically they are more important to Russia.

No Agricultural Value

The Kuriles are in the midst of important fishing areas but are of little or no agricultural value. According to the National Geographic society, the Japanese were unable to extract any substantial number of Japanese to the Kuriles. The only industry was the curing and packing of fish. From September until June the islands are snowed. The rest of the year they are fogbound.

Japan used them only for military installations after the war got under way.

Sahalin is more valuable. It has some agriculture and valuable coal and oil deposits. But it is historically Russia. The lower half was ceded to Japan as a result of the Russo-Japanese war. Japan was also able to obtain some oil concessions in the northern, or Russian, half.

CHARGES PAULEY HAD LEGISLATORS ON HIS PAYROLL

Promptly denied knowledge that King and Evans were paid by the advertising agency. He added:

"If they were on the payroll it was not in connection with legislative work."

He said in reference to the allusion to Donnelly in Packard's letter:

Drawing The Line

By a confusing coincidence, the House Naval Affairs committee was taking steps to prevent disclosure of technical data resulting from the Navy's coming atomic bomb tests at the very moment Secretary Byrnes was making his announcement that the United Nations Atomic commission will be invited to observe this huge and costly experiment.

Chairman Vinson of the committee rightly takes the attitude that the United States is under no obligation to make public the results of any tests this country performs. But it should be possible to let foreign observers see in general what the bomb can do when it is used against sea power without divulging technical information that might be valuable to future aggressor nations.

The problem is not a simple one, as it will be difficult to decide what part of the results of these tests should be divulged and what part kept secret. If too much is withheld, the United States will be suspected of carrying out the tests primarily for its own benefit—which it is—and the Navy will be accused of concealing the facts out of ulterior motives.

A compromise solution must be found. The United States wants the world to recognize the menace to the future of mankind the bomb represents. But it would be criminal negligence to put this weapon into irresponsible hands. It is up to the nation's policy makers to draw the line.

Small Business Revival

A dispatch from Oklahoma confirms that revival of small business is definitely under way. Report of the Oklahoma Tax commission for the final quarter of last year contains many interesting facts on the subject. What has happened in Oklahoma has taken place in other states.

The commission keeps close tab of new concerns at the same time listing the casualties. The net gain for the three months was 1,179.

Resumption of automobile manufacturing, later to be checked by strikes, prompted the opening of twenty additional dealerships. Six established concerns closed their doors. There was a net gain of one undertaker, a net loss of one hotel. Greatest increase came in food stores, with a gain of 228 establishments. The gain in restaurants and cafes was 206.

Ninety-six home appliance stores were opened and only five went out of business. In all, 2,485 new businesses drew their first breath during the period and 1,306 gave up the ghost. What has happened in Oklahoma is typical of other states.

New Air Era

The transcontinental air speed record has been broken again, and, as seems to be the custom these days, by a jet-propelled plane. The record now stands at 4 hours, 13 minutes and 26 seconds for the 2,470 miles from Long Beach, Calif., to New York.

Three Lockheed P-80 Shooting Star fighter planes made the flight. One, equipped with special gas tanks, made the trip non-stop in the record time. The others stopped once to refuel and still turned in times of approximately four and one-half hours for the distance.

Although no attempt was made at a top-speed record during the flight, the pilot of the non-stop P-80 said his top speed was approximately 660 miles an hour, or only 30 miles less than the speed of sound at the height at which he flew. This top speed is considerably higher than the 606 miles an hour recently marked up by a British jet-propelled fighter plane in a special speed test.

But more important than the indication that the P-80 can outfly the British plane is the implication for air transport of the future. If a P-80 can cross the continent in less than five hours, then transport planes of the future can do the same. Their power plants undoubtedly will be jet-propulsion engines.

Designers have been working on such plans for some time. In two years these plans will be translated into actual achievement in the air. This is a great age of aerial engineering to be watching. Propeller planes for speed transportation are nearing obsolescence. The age of jet and gas turbine is just starting.

Anti-Flu Shots

The influenza-suffering general public will welcome the announcement of the Army surgeon general that the Army's new anti-flu shots are producing encouraging results.

With vaccine made from killed viruses of influenza "A" and "B," the two most common types, the service doctors began vaccinating 7,000,000 men early in the fall. The new material reduced the incidence of flu by approximately 75 per cent among those vaccinated with it, as compared to unvaccinated persons.

The country is just now recovering from another flu wave. There seems to be an annual occurrence, with the peak a few weeks after Christmas. Many lives are lost in these epidemics, to say nothing of the suffering and the loss to workers and employers.

If the Army Medical Corps has produced something that will prevent flu, even in a sizable percentage of cases, it should be made available as quickly as possible through civilian medical channels.

One Man's Opinion

Harold Stassen has been around here making sense again. That boy is apt to be a presidential candidate if he's not careful.

Harold was too young in '40, too busy in '44 and he's just right for '48.

He even got a hotel room in New York City and any man that can do that is a man to watch.

Things are so crowded in New York that the vice president of the Metropolitan museum has just moved in between cupid and Venus.

It was a tossup between that or a marble bench next to Venus. She was unarmed and he was a gentleman.

And with all our crowding, the UNO is looking for five thousand outsiders and inside knowledge on Lewis and Conn in June. . . . Bevin and Vyshinsky in September.

The latter two boys are new to American audiences but we get good reports from London where they are fighting in the UNO preliminaries.

Shortage Of Doctors Threatens Nation

WASHINGTON, Feb. 4.—In this season of influenza and virus pneumonia, the shortage of doctor needs no statistical proof. It is a grim reality that bears down on patients and overworked doctors.

But the estimates show that the scarcity is certain to be worse in coming years. This means a decline in health standards, a decline in the well-being of the nation.

Physicians furnished me by Dr. Harold Diehl of the University of Minnesota medical school put the number of premedical students available for entrance into the country's medical schools in 1948 at 2000. This is one-third of the normal freshman enrollment in medicine. The estimate for 1947 is 2500 students.

Put Blame On Draft

Last year I wrote several columns on what this threatened shortage of doctors meant to the nation. I put the blame on selective service for its refusal then and now, to defer premedical students. This refusal, in the face of pleas from medical authorities all over the country cut off the future supply of medical students at the source.

In response to my columns came many letters which told another story. They were from students, or potential students, who had been rejected by medical schools because of their racial origin or their religion. While they were for the most part, of Jewish origin, there were also Italians and Catholics who told the same story.

Soms were 4-Ps. Some had received medical discharges after combat wounds. Many had applied to school after school, only to have their applications ignored or to be told the class was filled.

Quota System. They were under no illusions as to why this had happened. They cited the quota system which most medical schools apply, although no dean will ever admit such a quota system exists.

In New York, the mayor's committee on unity, headed by Charles Evans Hughes, Jr., has documented this un-American discrimination. The committee confirms that a quota system for Catholic, Jewish and Negro students has been established in the nation's leading educational institutions. It is particularly bad, according to the committee report, in medicine. And in the last decade, threats have rapidly grown worse.

There is no greater threat to a strong democratic America than this shadow of the ghetto imposed on American institutions. It is contrary to the deepest traditions of a nation that has grown great through the talents and skills and strengths of people of every race and creed.

Childish Contradiction

To fear competition, to resist it by quotas, is to confess an inferiority complex that has pathological overtones. The commonest letters that bubble with acrimony and hate sometimes boast of the writer's early American origin. That is a childish contradiction of our heritage of freedom. Some of us, it happens, had ancestors who came to America in the 17th century. But I cannot believe their motives were very different from the immigrants who came 20 years ago.

If the lesson of America has been forgotten, what happened in the war just ended, should have served to remind us that knowledge and greatness cannot be confined by race and creed. Hitler and Fascism drove out of Europe some of Europe's greatest scientists.

Enrico Fermi, Niels Bohr of Denmark and many others came here to work on the atom bomb. We speak of the discovery of atomic fission as an American triumph. In reality, it was an international achievement—the achievement of peoples of every race working in free America.

One of the European scientists who contributed to the early development of atomic fission has just come to Washington. Because of her race, Lise Meitner was driven out of Germany. She contributed in Sweden, where she was welcomed by the world's knowledge. Now Catholic university has invited her here to lecture on nuclear physics.

In the brain of a medical student barred from our colleges by his race may be the searching genius that could free mankind from one of the ancient scourges at our own peril. We deny these Americans the right to know and to study.

LET DAUGHTER HAVE HER CROWD AT HOME

"My daughter is 18 years old and a college freshman. She boards at school and comes home from Friday evening until Sunday. My husband is hurt because she goes out every Friday and Saturday nights to dances and he sees very little of her. He recently reprimanded her severely for this. Don't you think he is wrong especially since she is not allowed out at night during her time spent at school. Will you please settle this argument for us?"

Answer: Young people must be afforded the opportunity of mingling with their own contemporaries. Their quest for fun, excitement and friends of their own should not be interpreted by their elders as an indication of indifference or slight to them. It is simply youth. Once we, ourselves, have passed it into the more settled state, we are prone to forget our teen age doings and diversions.

It is only natural for your daughter to be interested in dates and dancing and just as long as you keep a watchful eye on her to give her proper guidance, there is no reason why she should be prevented from enjoying her week-ends with her young friends.

To appease your husband, you might suggest to your daughter that she spend at least an occasional Friday night at home with the family. And occasionally have her crowd spend the evening at your home. If you have a record player and some new, good recordings, food in the refrigerator for a late snack, your daughter will not mind staying at home sometimes and she may do so without jeopardy to her popularity.

Children who have carte blanche to bring their friends home are usually very popular and very happy.

LOOKING AT LIFE

By ERICH BRANDEIS

There was a cartoon in a paper that interested me.

It showed a fellow on a ladder in the kitchen, with his hand in the cookie jar, way up on top of the cabinet.

He looked quite puzzled as he called to his wife, who was sitting in the adjoining room: "Darling, don't you still hide your money up here?"

Somehow that cartoon made me think of the little talk I had with the wife of a friend the other evening.

It was about money. This friend of mine is a darn nice fellow. Everybody likes him. He is a splendid host, and when you go out with him he is the first one to reach for the check.

He loves his wife, and I am sure she loves him, although you can never tell what goes on behind the closed doors of a home.

"I do wish that Jim were different about money," his wife said to me. "He never tells me how much he makes and I haven't the slightest idea how we are fixed financially."

"Whenever I have to buy a new dress or a coat I am afraid that I am spending too much, and I have to ask him for every cent I need."

"He isn't exactly stingy but he hides his money from me. I do wish that he would look upon me as a partner and take me more into his confidence."

Just like that cookie jar cartoon, isn't it?

"I have never had much patience with fellows who talk—and think—about their wives as 'the little woman'."

Personally, I never saved a nickel until I got married. For some reason or other, my money always ran out a day or two before the next paycheck came around, and if I couldn't borrow a few dollars from the cashier, I'd go to Uncle Max and hook my fountain pen and my press badge on Friday and redeem it on Monday. He gave me 75 cents, and I paid him back \$1.25. Most of us newspaper reporters made that a regular routine.

And then I got married. The first thing my wife did was open a savings account in so much's bank.

"We put in so much's week," was her edict. And we did. That account has grown to pretty decent proportions—enough so that I don't have to worry about every additional gay half.

Then I gave her a regular amount every week for herself, and I never asked her what she did with it, nor does she ask me what I do with my allowance.

She knows exactly how much I make—because she balances my checkbooks, something I have never been able to do.

We are on a cash basis and don't use anybody's dime—half because we are partners and because we believe that both of us contribute an equal share to whatever makes life worthwhile.

And do you know what we keep in our cookie jar?

The war in China is over but the Chinese people are still seeing stars in front of their eyes. That family scrap was one of the longest in history.

Both factions claimed they were fighting for the people. But the people couldn't remember inviting them to do it for them.

China has had so many civil wars that even the history books fail to mention some of them. The Chinese motto up to now seems to have been: "Peace—what is it?"

It's nice though that the Chinese have decided to bury the hatchet some place else beside each other's skulls.

If practice makes perfect the Chinese soldier should be the world's champion fighting man, at any weight.

Grandpappy Jenkins says that now that China's civil war is over the Chinese can settle down to enjoy the blessings of peace—such as housing shortages, food scarcity and political campaigns.

CALCIUM

Calcium or lime is a very necessary mineral in our diet. Bones and teeth need lots of it. Milk is perhaps the best provider of calcium.

Babies and older people do need more milk than other people do.

Some children do not seem to be able to make proper use of the calcium in their food. They have poor teeth in spite of getting lots of milk. Perhaps the doctor can figure out the reason.

Milk and cheese and ice cream and sunshine are good for children.

Congressmen Cool Toward Probe Of Rapido Flood Of Miniature "Pearl Harbors" Feared
Hot Fight Looming On Anti-Strike Measures

By HELEN ESSARY
(Central Press Columnist)

WASHINGTON, Feb. 4.—Demands of veterans of the famed 36th Division for a congressional investigation of the tragic battle of the Rapido river are doomed to failure.

Records of the war department show that the operation, which resulted in some 3,000 casualties, was originally ordered by British Field Marshall Sir Harold Alexander.

The veterans want Congress to find out why Gen. Mark Clark, the American commander in Italy, went ahead with the program and spilled American blood needlessly against a foe superior in numbers, tactical position and equipment.

However, a majority of congressmen feel that such an investigation would prove the way for countless future probes. These, the more cynical say, would stack a pyramid of miniature Pearl Harbor hearings against the legislative landscape.

Furthermore, despite the protests of veterans who fought to defeat on the Rapido, General Clark still looms large as a national hero. This is not the time, not the season—they emphasize—for tarnishing the bright swords of heroes.

Ikkes Good Copy

Secretary of the Interior Harold I. Ickes cannot stand having anyone predict what he is going to do.

Best example of the Ikkes attitude on such matters came late in November at a news conference when a reporter asked him for comment on rumors that he would advocate statehood for Hawaii about Jan. 1.

The Ikkes then told news and radio men that he was opposed to statehood for the present because of the economic control over the islands by the "Big Five." He indicated then

Penn-Ohio Coach Lines Now Become Ohio Greyhound

Thirty-Seven New Busses Have Been Ordered For Use On Lines

Penn-Ohio Coach Lines company today acquired a new name and with it greatly increased facilities for giving service in the extensive territory it serves.

The company hereafter will be known as Ohio Greyhound Lines as a part of the nation-wide Greyhound bus system. It became part of that system on January 1 when the Greyhound Corp. acquired ownership of the company with the approval of the Interstate Commerce Commission.

Soon new busses of the latest design bear the Ohio Greyhound Lines name and the familiar Greyhound insignia will be traveling the routes which have been served by Penn-Ohio. Thirty-seven new busses have been ordered. Twelve of them will be 41-passenger A.C.P. coaches which have been completely redesigned for post-war highway travel. Five will be the General Motors Victory model, a cruiser type bus seating 37 passengers.

The other 20 will be the familiar Silverlides which have carried the insignia over the highways of the nation. They will be 41-passenger busses with all of the improvements made possible by ability to get materials which were not available during the war.

CAREFUL CUTTING SAVES TIME IN HOME SEWING

Time spent in careful marking and cutting is time saved when making a dress. Nothing can overcome a bad cutting job no matter how skillful you are at sewing.

Have a wholesome respect for the dots and lines on the pattern which indicate the grain of the material.

These marks are to be placed on the lengthwise threads of the material, but if this is not done the pieces of the dress will always hang crooked.

Begin by seeing that the cut edge of the piece of material is cut straight. Straighten it if necessary by drawing a thread. Some wash materials containing starch or sizing may have been ironed crooked. If it is still crooked after being cut on a thread, lay the material flat on the table and pull it into shape.

Part of the dress is cut with the material folded so that the cut ends, the selvages and the fold all lying straight and even.

Always match plaids, stripes and large figures. Mis-matching interferes with the design of the dress and denotes careless workmanship. Some materials have an up and down, either in weave or in pattern. This means all pieces of the pattern must be placed on the material so all the design is in the same direction.

All patterns allow a specified amount for seams. Keep this in mind and cut accurately along the edge of the pattern.

See that pins do not leave marks in the material. If they do, they should be placed at the edge of the pieces in the seam allowances. For the beginner in sewing, it is always safer to pin all pieces of the pattern on the material, then check carefully before cutting. Cutting is done with long even strokes of the scissors.

New Rationing Period For Liquor

HARRISBURG, Feb. 4.—(INS)—The first of two additional 14-day liquor rationing periods began today in Pennsylvania.

The state liquor control board has continued rationing until at least March 2. During each of the periods, Pennsylvanians will be permitted to purchase one-fifth of a gallon plus a pint of rationed whiskey while licenses will be allowed 90 per cent of normal purchases. Civilians must present war ration book No. 3 when buying their quotas.

The board pointed out that 16 brands of unrationed whiskey will be available to the public and it licenses as long as the supply lasts. Brandies, rums, gins or wines have not been rationed. State stores will be closed February 12 and 22.

ASTRONOMER FINDS NEW "DARK STAR"

NEW YORK, Feb. 4.—(INS)—An astronomer today revealed discovery of a "dark" star similar to the sun, behind the Orion constellation in the northern skies.

Dr. Nicholas E. Wagman, active director of the Allegheny observatory at the University of Pittsburgh, said the discovery was made possible by a new process of astronomical photography which penetrated the blinding brilliance of the northern constellation.

Dr. Wagman told the 74th meeting of the American Astronomical society that until now the newly discovered star, although approximately equal in brilliance to the sun, had been hidden by light from another star more than 20 times brighter.

More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. F.A.S. TEETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No sunny, gooey, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks plate color. (denture breath) Get F.A.S. TEETH today at any drug store.

G. O. P. Control In State At Stake

Primary Election In May Will Have Large Bearing On Future Control

OTHER NEWS OF STATE AFFAIRS

HARRISBURG, Feb. 4.—(INS)—Control of the Republican State committee will be at stake when the organization meets to reorganize after the May 21 primary.

Some Capitol leaders have predicted that a fight would take place with the so-called younger element attempting to wrest control from the old-line party members.

If Lieut. Gov. John C. Bell should win the GOP gubernatorial nomination, some chieftains predict that his followers will gain control of the 113-member State committee.

Reports that State Chairman M. Harvey Taylor, of Harrisburg, will not be renamed to head the organization have been circulating in Capitol Hill.

Some observers have said that Taylor's assistant, G. Harold Watkins, of Frackville, a former state senator and present Senate secretary, would be named to head the committee.

Dissatisfaction with Taylor's leadership among rural county members has been reported.

Watkins, an unsuccessful candidate for auditor general in 1944, is 43 years of age.

"The Pennsylvania Angler," organ of the Pennsylvania Fish commission, has reminded anglers that the 1946 fishing season would remain the same as last year.

The trout season will open April 15 and close July 31.

Limits will be 10 daily of combined species of either Brown, Brook or Rainbow trout.

"Public consciousness has too long slumbered in complacency as to the seriousness of the social and economic problems of our mineral industries," Edward Steidle, dean of the Pennsylvania State College Mineral Industries school, has reported.

Writing in the Department of Internal Affairs monthly bulletin, Steidle said: "In the more complex field of human relationships no solution has been found and compromise based on immediate expediency do little more than to face temporary troubles."

"The Pennsylvania Road Builder," official paper of the Pennsylvania State Association of Township Supervisors, Pennsylvania State Association of Township Commissioners and the Pennsylvania Home Rule association, has pointed out that the State Highway department's post war road building program could be delayed because of the lack of skilled manpower.

The paper explained that nearly 20,000 department employees had entered the armed forces.

McCLINTON SURRENDERS

Police reported today, John McClinton, colored, 10 West Home street, alleged to have been implicated in a quarrel that resulted in being wounded with a revolver bullet Friday morning in West Grant street, has surrendered. He walked into police headquarters at noon, but has not been quizzed concerning the arm wound sustained by Thomas Colbert, colored, 1112 Beach street.

Posthumous Award For Pvt. Cunningham Given To His Sister

Geraldine Cunningham Notified Of Citation For Hero Killed In Italy

Miss Geraldine Cunningham, 1028 Maryland avenue, has been notified by the war department, Edward F. Witsell, major general, acting for the adjutant-general, that, by direction of the president, the silver star has been posthumously awarded her brother, Pvt. Lawrence J. Cunningham, infantry, who was killed in action in Italy, October 11, 1944.

The award was made "for gallantry in action October 10-11, 1944, near (deleted). The First Battalion, 351st Infantry Regiment, was in the attack in the vicinity of (deleted). Company D was in support of the leading element in the attack. Private Cunningham was a gunner of one of the machine gun squads, maintained continuous fire on the enemy refusing to take any relief throughout the entire night.

Still At His Gun

The following day he was still at his gun, without rest, when at 0900 hours the area came under harassing fire from enemy snipers, killing a litter bearer and wounding two men. Private Cunningham, on his own initiative, called to one of his comrades to take his place.

The machine gun, being armed with an M-1 rifle and carrying a pair of field glasses, Private Cunningham, without regard for his own personal safety, crawled up to a point where he could observe the enemy. From this dangerous position he succeeded in killing two snipers. Pvt. Cunningham observed that several Germans were hiding from a nearby haystack. By using tracer ammunition he set fire to the haystack and forced the enemy to withdraw.

Relieved Pressure

In this manner Pvt. Cunningham personally relieved the pressure on the left flank of the company. On the same evening, Pvt. Cunningham, hearing some activity on his right, moved over for closer observation, even though his comrades warned him of the danger involved. During this action, Pvt. Cunningham was killed. His tenacity, aggressiveness, courage, and utter disregard for his own safety have greatly impressed his comrades. His actions have been in keeping with the highest traditions of our armed forces.

In addition to his sister, he is survived by a brother, Lewis Cunningham, former New Castle resident, who now lives in Pittsburgh.

Pvt. Cunningham lived on the New Castle-Mt. Jackson road when he entered service in New Castle in December of 1943.

RETURNING TO POLICE

George Haring, former temporary policeman, who was in service several years, will be renamed a city temporary policeman according to Mayor John F. Hagen. Men who held such jobs when they went into service are being returned to them by councilmen.

Lord Halifax Makes Plea For More U. S. Aid

ATLANTIC CITY, N. J., Feb. 4.—(INS)—Lord Halifax, British ambassador, declared today that unless the United Nations Organization is made a firm instrument to maintain peace "we may well be signing a post-dated death warrant for our civilization as we have known it."

Addressing a meeting of the National Congress Association, Halifax pleaded for more food for Europe, support for the proposed four billion dollar loan to Britain and a firm understanding between Britain and the United States.

The food situation in Europe, the envoy declared, is essential for the reconstruction of Europe, as well as the Far East.

He reported severe shortages in meat and wheat, sugar, fats and oils in Europe and said that there is an equally serious situation in Asia where a severe rice shortage exists.

T-4 Frank A. Miles, whose wife, Mrs. Jean G. Miles, lives in Wampum, is now with the 107 Medical battalion, a unit of the 32nd Infantry division on the island of Kyushu, Japan. Commenting on his recent trip through the atom-bombed city of Nagasaki, soldier Miles described it as "unbelievable."

Mrs. R. E. McGaffie, of 1311 Wilmington avenue, received a cablegram on her birthday, Saturday, from her son, Pfc. Roy McGaffie, who is stationed in Bremen, Germany, congratulating her on the anniversary. Pfc. McGaffie is stationed with the General Hospital Corps in Germany coming there from Fort Lewis, Wash., where he was stationed.

Joseph E. Williams, A-S son of Mr. and Mrs. Clark Williams, Sheriden, is stationed at U. S. N. T. C. Bainbridge, Md. He entered the service on January 17, 1946.

Landlords Warned By OPA Director

PITTSBURGH, Feb. 4.—(INS)—The Pittsburgh area OPA rent director threatened criminal action against landlords who subject tenants to "furniture store sales." "We will definitely take criminal action in every instance of unauthorized tie-in furniture sales which is brought to our attention," Rev. Charles O. Rice, rent director, declared today.

"We have three years to bring such prosecutions," he will sue the landlord for treble damages, if the tenant fails to do so, and the tenant will remain in the property." Rice pointed out if a petition is filed before the sale and an OPA investigation conducted prior to the sale.

MONESSEN—An indication of how municipal officials view the steel strike was given when about 15 of them joined a CIO picket line around the Pittsburgh Steel company's plant.

Preparing Way So Quads' Father Can Marry Again

PITTSBURGH, Feb. 4.—(INS)—Attorneys today began to remove the final obstacles in the path of William H. (Red) Thompson, an ex-army sergeant, who has made frequent claims that he wants to marry the young English girl who bore him quadruplets two years ago.

Over the week-end, Mrs. Eleanor Janemann Thompson, attractive 24-year-old beauty operator, filed suit for divorce, charging her husband with "indignities." She claimed that she was "hurt and humiliated" over the international publicity attending the birth of the four children.

Negotiations For Housing Units Are Authorized

Boroughs And Small Cities Are Given Right To Secure Surplus Housing

HARRISBURG, Feb. 4.—(INS).—The State Housing board today authorized boroughs and small cities to negotiate with the Federal government for surplus housing units. Municipal officials were notified that the borough code and the State Housing Authority act would not restrain more than 960 political subdivisions from participating in Federal housing plans.

The Justice department had ruled that legislation would not be necessary to authorize small communities to establish housing authorities, the board added.

Director Brenton G. Wallace urged communities, educational institutions and eligible organizations to apply for demountable units so "no time would be lost in placing Pennsylvania's requirements on record."

Allocate Housing
Twenty-one thousand emergency housing units were slated to be allocated among communities in Pennsylvania, New York, Delaware and Maryland but no distribution plan has been adopted, he added.

Eleven cities and 26 educational institutions have applied for 7000 temporary structures, Wallace reported. Distribution was expected to be based on a ratio of one for every 1000 persons he added.

"Some have been granted, but with greater distribution about to begin, Pennsylvania must act promptly if we are to receive an adequate share," Wallace declared.

Under the federal program, communities must provide sites and necessary roads, sidewalks and utility lines, it was explained. The Federal government will bear the cost of transporting and re-erecting the homes.

The units offered included standard and expensable trailers, converted barracks and dormitories, stationary and portable one-story dwellings and multi-unit demountable one and two story structures.

Player Pays For Slugging Coach

UNIONTOWN, Pa., Feb. 4.—(INS).—Glenn Stough, a member of the Greensburg American Legion Independent football team, today paid court costs, including a \$14 hospital bill, for allegedly slugging a coach. The story goes that Art Ruff, coach at Connelville High School, was refereeing a game. He penalized Stough, Stough slugged Ruff, who wound up in a hospital. Came time for trial Ruff refused to prosecute so Alderman G. F. niello dropped charges and assessed Stough costs.

EMERGENCY HOUSING
PITTSBURGH, Feb. 4.—(INS).—The committee for emergency housing of veterans today recommended the use of the Guskys Orphanage to house single ex-soldiers. The home was offered to the city last week and will accommodate approximately 100 men.

Gets Much Mail From Unknown Man

WEBSTER SPRINGS, W. Va., Feb. 4.—(INS).—Most everybody likes to receive letters, but Webster Springs today has a young woman who complained that she received more than a score last month.

Of course the letters were penned by someone unknown to her. The Bible, the stock market, the constitution of the United States and historical and current events.

Mable Maust, recipient of the letters asked Fayette County authorities to do something about it. She was particularly vexed, it seems, because they were all addressed to her as "My Dear Thelma".

According to Miss Maust the letters were written by Gail Halstead, a guy, as she explained it, unknown to her.

And just to keep the record straight Fayette County police are going to do something about it. They plan on looking up Halstead among other things discuss law, prison terms, rock piles and if time permits, current events.

Youngstown Boy Dies; Overcome By Smoke

YOUNGSTOWN, O., Feb. 4.—Rescued from his parents blazing apartment, 12-year old Renwick Goldberg of Youngstown died early Sunday afternoon in St. Elizabeth's hospital.

A brother of the young fire victim, Fred Goldberg, is still under treatment in the hospital after crawling out on a second floor and being taken down a fire ladder. Firemen found Kenwick overcome by smoke in the bathroom.

Two other children and the parents, Mr. and Mrs. I. Goldberg, were away when the tragedy occurred.

TWO HURT IN CRASH

WARREN, Pa., Feb. 4.—(INS).—Two persons were recovering in the Warren General hospital today from injuries sustained when the automobile in which they were riding crashed into a truck.

Paul McCoy, 20, and Nora Dickerson, 20, both of Warren, suffered possible internal injuries and serious cuts and bruises about the body when they crashed into the truck near Sheffield. Four others in the car were less seriously hurt.

TINY BABY MAKES GOOD PROGRESS

PITTSBURGH, Feb. 4.—(INS).—Linda Jane, who has spent the first three months of her life in an incubator and an air conditioned cubicle, today is the feature of homecoming plans.

Linda was born at Montefiore hospital November 7 and weighed a mere two pounds, six ounces.

Although the six and half months babe had little chance of survival, the doctors and nurses refused to give up hope.

For the first week of her life, she lived in an oxygen tent, then, for more than two months she lived in an incubator. And finally she

was moved to an air-conditioned cubicle.

In their desperate efforts to keep Linda alive, the doctors gave her three blood transfusions, and until a couple of weeks ago, she was given mother's milk from the hospital registry.

Today, as a result of expert care, her carefully controlled environment and a diet of orange juice, cod liver oil, vitamin B and a powdered formula, little Linda Jane weighs five pounds 13 ounces and is ready to go home to her nursery and to her parents—Mr. and Mrs. Elmer Shoup.

ERIE—"In the next war our enemies will merely have to push buttons in order to wipe out civilization," Dr. P. G. Krishnappa, of Madras, India, told an Erie club. "Our only salvation lies in traveling the road to world cooperation and good will."

Hundred Persons Routed By Fire

PITTSBURGH, Feb. 4.—(INS).—A series of fires—routing more than 100 persons from their homes and apartments over the weekend—caused damages estimated today at more than \$65,000.

Two apartments, a hotel and a three-family dwelling were hit by the flames, which forced occupants out into the freezing weather.

Although several of the fire victims were overcome by smoke, no serious casualties were reported by firemen.

A survey has shown that when mail is placed on a man's desk, he is most apt to open violet-colored envelopes first.

January Marked By Dearth Of Snow

Precipitation During Month Is
Least In Many Years,
Records Reveal

The month of January this year proved one of the driest in the history of the local Weather Observing station. Observer B. F. Johnson stated today, only 97 inches of precipitation being noted with a snowfall of only 3.6 inches, compared with around 14.5 inches last January. The month was also about nine degrees per day warmer than in January last year, which proved an extremely cold month.

The mean maximum temperature was 41 degrees, the mean minimum, 28.8 degrees, and the mean or average for the month was 31.4 degrees. The highest was 58 degrees on January 6 and 7, while the lowest was four below zero on the 23.

Precipitation was 97 inches, with the greatest fall in 24 hours being noted on January 7, amounting to

2.8 inches. The total snow fall was 3.6 inches, and the greatest in 24 hours being two inches on the 21.

There were seven days on which the maximum temperature was 32 degrees or below, and 23 days on which the minimum temperature was 32 or below. There were two days with below zero temperatures.

Days with .01 inches or more precipitation totalled 11, days clear were 6, partly cloudy 8, and cloudy 17.

The normal temperature for January is 28.2 degrees, the average for this year being 3.2 degrees above normal, against 6.6 degrees below the normal for last January. The normal precipitation for January is 2.29 inches, this year's precipitation being 2.23 inches below the normal in January of last year, it was 1.27 below normal.

FREE FIRE PROTECTION

STATE COLLEGE, Feb. 4.—A survey by the Institute of Local Government at the Pennsylvania State College disclosed that 125 of 169 Pennsylvania municipalities rendering fire protection beyond their corporate limits make no charge for this service. The radius of operation is limited, however, by 112 of the 125 municipalities.

At the home of Miss Doris Daugherty of 422 Park avenue, members of the Fellowship class of the Mahoningtown Presbyterian church, taught by Mrs. W. P. McClurg, were entertained over the week-end.

Miss Virginia Drummheller and Jack Holliday conducted the devotional period.

Mrs. Ruth Glenn, president, was in charge of the business session. Mrs. Robert L. McKibben gave a review of the book, "African Lok," an account of missionary work in Africa, which was well received. This was followed with a general discussion by the group.

Various games and music were the evening's diversions.

A delicious lunch was served by the hostess, and Mrs. Glenn, associate hostess.

The next meeting will have Clara Galbraith of West Madison avenue, as host, on Friday evening, March 8.

Birthday Club With Mrs. J. D. Thompson

Members of the Birthday club gathered on Saturday evening in the home of Mrs. J. D. Thompson of East Madison avenue.

A splendid dinner was served by the hostess, with Mrs. Sallie Deegan as her aide.

Games of contest were the diversion of the evening, with prizes falling to Mrs. Hugh Stewart and Mrs. George Huff. Miss Hattie Kenner was awarded the door prize. Mrs. George Huff of 312 North Cedar street will be hostess to the club at the next meeting of the club.

SON'S BIRTHDAY OBSERVED AT PARTY

At the home of Mr. and Mrs. Louis Cubellis of 402 North Cedar street, a number of children gathered recently. The occasion was in honor of the fifth birthday anniversary of their son Norman Cubellis.

Various games were the diversion of the evening.

A splendid lunch was served by the hostess, assisted by her nieces Anita and Jacqueline Dattilo.

The honored guest received a number of lovely gifts.

1,000 EGGS IN EVERY HEN

If You Keep Chickens
CUT THIS OUT

"The great trouble with the poultry business has always been that the laying life of the hen was too short," said Henry Trafford, nationally famous Poultry Expert, for nearly eighteen years Editor of "Poultry Success."

The average pullet may lay 150 eggs or more in a season year may lay 100. Then she goes to market. Yet it has been definitely established that every pullet minute egg getting in her system and may, in many instances, be made to lay five years—if given proper care.

How to work to get up towards 1,000 eggs from hens instead of discarding them after one year of laying, how to keep up production from fewer birds, save on upkeep, cost of breeding, feeding and housing, and so on, are the secrets of the money-making poultry secrets are contained in Mr. Trafford's 1,000 EGG HEN PLAN of poultry raising, our copy of which will be sent free to any reader of this paper who keeps SIX hens or more. Eggs, this year, will be in great demand at good prices to face the place of rationing meat. Means real profit for the smart poultry keeper who can make birds produce. Mr. Trafford tells how. If you keep chickens and want them to pay for you, with care and address to PENN. POULTRY SERVICE, Suite 164, 333 North 15th St., Philadelphia 2, Pa., and free copy of the 1,000 EGG PLAN will be sent by return mail.

of the Mt. Jackson U. P. church in the home of Mrs. I. E. Swisher, Mt. Jackson road.

GIRL SCOUTS TUESDAY

Members of the Girl Scouts, Troop 16, will meet Tuesday afternoon, at 4 o'clock, in the social room of the Mahoning Methodist church. Miss Alma Wolverton, leader.

Large Tax Refunds Made During Year

House Committee Makes Public
Record Of Tax Refunds In
Nation In 1945

WASHINGTON, Feb. 4.—(INS)—The Internal Revenue Bureau disclosed today that five corporations and one individual each received more than one million dollars in federal tax refunds for the 1945 fiscal year.

Ell Lilly and Co., Indianapolis, Ind., received the largest sum returned to a taxpayer in the nation—\$2,249,065.

Henry F. Dupont, of the huge Delaware chemical firm, collected more than a single individual in the country when the federal government handed him back \$1,375,000. These refunds were revealed when the House Expenditures committee made public Internal Revenue Bureau lists of U. S. taxpayers receiving more than \$500 from the government.

The government refunded millions of dollars to thousands of corporations and individuals in all of the 48 states. The money had been collected through practically all forms of taxation—subholding, income, estate, gift, distilled spirits, excess profits, excise and employment levels.

Of the five corporations receiving more than one million dollars, two are located in Michigan and two have main offices in Pennsylvania. They are:

Refunds Given
Sharp and Dohme, Inc., Philadelphia, \$1,856,744; Parke, Davis & Co., Detroit, \$1,672,114; Upjohn Co., Kalamazoo, Mich., \$1,164,104; and Talon Inc., Meadville, Pa., \$1,066,478.

Film stars were numerous on the lists of taxpayers allowed refunds. Marlene Dietrich collected the top refund, \$16,510, for the actors. The estate of the late Douglas Fairbanks received \$12,105.

Edwin W. Pauley, the President's nominee to be undersecretary of the Navy, also was allowed a refund. The government returned to him \$8,777 which he had paid in income taxes for the fiscal year ending last June 30.

Members of Congress received refunds. Among the legislators getting a return on their 1945 taxes were Sen. Murdock (D) Utah, \$609; Sen. Taft (R) Ohio, \$7,804; as administrator of the estate of Helen H. Taft; and Rep. Lemke, (R) N. D., \$84.

The estate of Theodore Roosevelt collected \$659. A trust fund for Doris Duke benefited by \$4,611, and Gloria Laura Morgan Vanderbilt got back \$1,024.

Spanish War Vets Planning Banquet

Maine Day Will Be Observed With
Dinner In Legion Home On
February 16

Col. Daniel Leisure Camp, United Spanish War Veterans, are making arrangements for the annual observance of Maine Day, the event which precipitated the start of the Spanish-American War, when they will gather for a banquet in the Legion home on Saturday, February 16.

The battleship Maine was sunk in the harbor of Havana, Cuba, on February 15, 1898.

Dinner will be served at 6:30 o'clock to be followed by a program, in which the Spanish War vets hope to hear from some of the men of the present war who served in the Philippines.

Many types of doctors' degrees are awarded by colleges and schools.

YMCA Officials To Inspect Camp

Staff members of the YMCA branch will make a tour of survey at their summer establishment, Camp Rentz, Tuesday morning, February 5.

The staff will make a thorough inspection of the facilities, and report necessary repairs and improvements to the camp committee.

HURL BABY SHOES THROUGH WINDOW

Sometimes a rock is employed to break a window and upon other occasions bricks have been used. For the first time in the history of local police a baby's shoe was used Sunday to break a pane of glass. At least, a baby's shoe was found day morning.

in the McMillen pharmacy, Seventh ward, after Policeman Frank Reynolds found a window had been broken in the rear of the place.

Whoever smashed the pane of glass did not enter the drug store, the opening not having been sufficiently large to permit it. Reynolds reported to police headquarters. The episode occurred early Sunday morning.

Medical Exams Of School Children Making Progress

Dental Exams Near Completion: Medical Exams Will Keep Staff Busy Till Spring

Medical and dental examinations being given in the schools in alternate grades from the first through the 11th are progressing rapidly, but will keep the medical and dental staff busy until the end of the term, said School Superintendent Frank L. Burton today.

The dental examinations, being given by Dr. Thomas McPate, Jr., and Dr. Benjamin Levin, are moving faster than the medical examinations, because the dentists may take care of eight pupils an hour. Only West Sides school North street, Mahoning and part of Franklin remain to be taken care of.

Medical Exams
Medical examinations, being given by Dr. William Womer and Dr. T. M. Shaffer, have been completed in Rose avenue Oak street, Pollock, Highland, Arthur, McGill, Lincoln, Garfield, West Side, Mahoning, North street and Croton schools. Both Franklin and Washington junior high schools plus senior high school and the parochial schools remain to be done. The doctors are assisted by school nurse Mrs. Frieda Thompson and by the clerk, Miss Margaret Zimmerlee.

The examinations are given to all students in grades 1, 3, 5, 7, 9 and 11, and the medical examinations are given to all teachers, janitors and other school employees who come in contact with the pupils. This new procedure went into effect at the opening of the fall school term. Examinations in both the parochial and public schools, are paid for by the state.

Pensacola, Fla., was settled permanently in 1696 by Spaniards from Vera Cruz. It was captured by the French in 1719, restored to Spain in 1723, passed into the hands of the British in 1763.

Globe Trotter To Be Guest Of Club

Robert Friess Will Entertain Executives Club From Wealth Of Travel Experience

ROBERT FRIESS

New Castle Executives club will have as the next speaker, Tuesday evening in The Castleton, Robert Friess, who is well known for his globe-trotting adventures.

He possesses a keen sense of humor and has had many experiences of a funny nature, his sense of the ridiculous having stood him in good stead in many of his embarrassing and sometimes dangerous predicaments in strange nations.

Club officers feel sure that the members and their ladies will enjoy his talk.

Muddy Creek Class Will Present Play

Comedy 'Murdered Alive' To Be Given In Portersville Hall February 7

The Junior class of Muddy Creek township high school will present a play entitled, "Murdered Alive", on February 7 and 8, at 8 p.m. in the I.O.O.F. Hall, Portersville.

The play is a mystery comedy in three acts. Wealthy Marvin Ryder has been killed in a motor accident. His lawyer wires all the heirs to come to "Hillcrest", the country estate of the deceased. The will mentions most of the relatives who come off handsomely, and just as they are congratulating each other on their good fortune the lawyer reads two codicils which change matters considerably. Action Chance, a detective, arrives and tries to catch the murderer. Another strange coincidence is that there are at least a dozen clocks in the house that continue to keep time and strike the hour regularly, although nobody has wound them for days.

At the end there is a charming romance.

Cast

The cast is as follows:
Mrs. Libby Ryder, a society matron—Lucille Sechan
Arden Ryder, her charming young daughter—Virginia Toth
Warner Melton, in love with Arden—James Leise
Tithe Meek, a maid—Lois Breneman
Iris Alda, who gets messages from the dead—Mary Virginia Young
Lavern Speed, from Croton Corners—Kleanor Hallstein
Stella Backus, who rules the roost—Betty Bridge
Frank Backus, her weaker half—George Ridger
Action Chance, a correspondence school detective—Lloyd Pfeiffer
Otis Martin, a lawyer—LaVerne Moore
Arlene Evans, charming and refined—Ruth Young
The Mysterious Stranger, who is all that the name implies—Bob Trudak.
Director—Mr. McCandless.

Insurance Men Will Meet February 14

"A Career or a Job" will be the subject of a timely address by John H. (Rusty) Coles, manager of the Home Life insurance company of New York, from Pittsburgh, at the monthly meeting of the New Castle Insurance Underwriters, who will gather in The Castleton hotel on Thursday, February 14.

John E. Dinello is president of the New Castle branch of the Pittsburgh Life Underwriters Association.

Workers On Strike File 4,032 Claims In Lawrence County

From Monday morning at 9 o'clock until Friday evening at 5, a total of 4,032 persons engaged in industrial disputes had registered for unemployment compensation in Lawrence county, according to information released by the local U. S. Employment Service office.

Most of the claims were filed either at the United Labor Hall on South Jefferson street or at the C. I. O. Hall in Ellwood City, although some were also filed in the U. S. E. S. office.

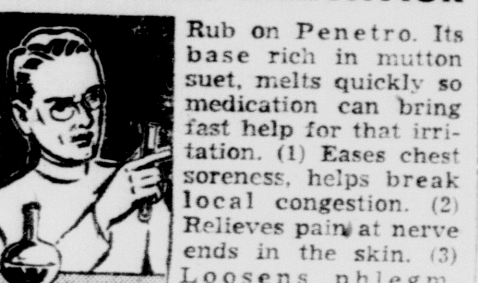

In addition to these claims, 291 veterans have filed claims for weekly benefits under the G. I. Bill of Rights, and 238 other ex-servicemen have filed for compensation based on their frozen benefits. These 238 claims were all filed on Friday, after receipt of the governor's approval of the measure entitling the ex-servicemen to receive compensation based on their pre-service earnings while engaged in industrial disputes.

The veterans must wait for the same penalty period as other workers on strike, and will begin receiving their compensation on March 11.

Two thousand, seven hundred of the claims were filed in Ellwood City.

MARKET TODAY IS UNSETTLED

NEW YORK, Feb. 4.—(INS)—Stocks faded to lower levels this morning in a moderate trade. Most issues were fractional with a handful of high priced issues off a point or so.

First hour volume approximated 410,000 shares.

Steel issues trailed as much as a half. Bethlehem lost an early fractional gain. Chrysler dipped 1 1/2 in a thin market. Rails turned easier with Northern Pacific reacting nearly a point.

Pan American Airways was firm but other aviation tapered. U. S. Smelting was independent, strong. American Smelting jumped a point. In the utility group Engineers P. S. lost a point.

Capt. L. F. Safford Retracts Charge On Wind Message

WASHINGTON, Feb. 4.—(INS)—Capt. L. F. Safford today testified—and later retracted the testimony—that he suspected the 1941 Army and Navy high command of destroying evidence of a Japanese "Winds" war warning.

Safford, pre-Pearl Harbor naval decoding officer, at first told the Pearl Harbor committee he suspected Gen. George C. Marshall and Adm. Harold R. Stark of what he conceded would be a "criminal operation."

Sen. Lucas (D) Ill., pinned the witness down later to the specific issue of whether he had any "suspicions toward General Marshall and Admiral Stark."

Safford paused for almost a full minute and then replied:

"I conclude that I had no proper basis for suspicion against any individual."

Lucas then asked if he wished to change his testimony regarding Stark and Marshall. Safford, obviously under intense strain, paused again lengthily and then quietly stated:

"I would like to change my answer in response to the Congressman Clark's question. His previous statement was made while being questioned by Rep. Clark (D) N. C."

"I have no suspicions directed against any individual who can be named."

Hosiery Shop Holdup Nets Lone Thug \$450

Lone Bandit Enters Philadelphia Shop, Intimidates Two Girl Clerks

PHILADELPHIA, Feb. 4.—(INS)—A lone bandit escaped with \$450 from a mid-Philadelphia hosiery shop today after boasting he had "already killed somebody."

Two girl clerks at the Newburger Hosiery store said the well-dressed man entered the shop shortly after it opened. He kept his hand in his pocket as though he were pointing a gun at them through the cloth.

They quoted him as saying:

"Come across with the dough or I'll kill someone. I've already killed somebody else."

He put the money in a paper bag and walked away in the crowd, the clerks reported.

Group From Here At Salvation Army Pittsburgh Forum

Eleven young people from the local Salvation Army corps will attend the monthly meeting of the Allegheny Youth Forum sponsored by the Divisional Salvation Army corps in Pittsburgh this evening.

The group includes: John Freeman, Donald Freeman, Lois Eckley, Charles Eckley, Junior Eckley, Nathan Kirkwood, Jimmy Munner, Evelyn Kuhn, Paul Fabian, Wayne Pennroad, and Pvt. Loy Fennell, now on furlough from the army.

Captain Arthur Reddie, an army chaplain, will speak to the forum about his experiences in the Aleutian Islands. The young people are accompanied by Lt. Mary Verner of the Lawrence county corps.

Supreme Court Rules In Favor Of Magazine

WASHINGTON, Feb. 4.—(INS)—The Supreme Court ruled today that the postmaster general exceeded his authority in denying second class mailing privileges to Esquire magazine.

The high tribunal upheld a Circuit Court of Appeals decision of June 4, 1945, holding that former postmaster general Frank Walker, had no power to bar Esquire from the second class mail on moral grounds.

Postmaster General Robert Hannegan carried the case to the high tribunal, asking a determination of whether a publication conceded not to be obscene might be denied the mailing privilege because of "salacious appeal."

Indian Missionary Churches To Merge At South Side Church

On Sunday morning at the First Congregational church, East Reynolds street, Miss Manorama Powar of Satara, India, addressed a large and appreciative audience and spoke of the hopes of the Indian people for independence. There are now 10,000,000 Christians in India, out of a population of about 400,000,000.

During the service Miss Powar entertained with songs in the Marathi language. Among those present was Evan Lewis of Front street a former British soldier who at one time was stationed at Satara with the British army. Miss Powar exchanged reminiscences with Mr. Lewis concerning the past work of the mission.

Miss Powar addressed the Semper Fidelis class during the Sunday school session, being introduced by Miss Kathryn Spencer, class president.

Pullman Planning Stepped Up Output

CHICAGO, Feb. 4.—(INS)—The Pullman-Standard Car Manufacturing Company said its goal today was production of 900 freight cars a month within 30 days.

The Carbuilder, company news organ said the plant intends to step up production of freight cars to 1,400 a month later.

A high of 68 cars a day were turned out during the war.

Students Return From Performance In State Festival

Six Senior High School Musicians Play In All-State Concert Under Noted Musician

Returning from five days of rehearsal, performances, and fun, the six Senior High school students who took part in the All-State music festival in Harrisburg have more than their medals and certificates to show for part in the program.

Accompanied by Joseph E. Replogle, director of the High school band and orchestra, the students who attended were: Eleanor Lutton, senior; Blanche D'Cola, senior; Donald Levine, sophomore; Tom Wyand, sophomore; Gary Brehm, junior; and James Grauel, senior.

Besides the stimulating of playing in an orchestra made up of 195 talented students, the young musicians had the added experience of performing under the direction of Louis Wersen, director of music education in the Philadelphia schools and one time conductor of the Washington symphony orchestra.

Mr. Wersen is also president of the National Educators council.

For their final concert in the auditorium of the State Education building Saturday evening, the student orchestra faced an audience which filled every seat and took up part of the aisles. Previously they had given a concert for a grade school audience and had watched a drum demonstration by Phil Grant and Al Moffatt of Goldsmith's orchestra, and Viola Smith of the All-Girl orchestra.

All of the students were entertained in Harrisburg homes for their rehearsal and performances, there was dance, theater party, tour of the capitol, and banquet.

Public Librarian Heard By Ministers

Vote Of Confidence Extended To Rev. Jack Burris In Public Cathedral Meetings

Miss Alice Sterling, librarian at the New Castle Free Public Library, gave an interesting review of religious books in the local library to the bi-weekly session of the New Castle Ministerial Association, which was held Monday morning in the First Presbyterian church, Jefferson at Falls streets.

Introduced by Dr. E. A. Crooks of the Reformed Presbyterian church, Miss Sterling extended an invitation to the ministers to make use of the library at all times. The book review was followed by comments of various ministers on the cooperation that they have received in using the library from time to time.

Rev. Walter W. Gilliland, president, who was in charge of the session, introduced Rev. Jack Burris of Pittsburgh, who is in the city to conduct a one month's evangelistic effort in the Cathedral auditorium. The ministers extended a vote of confidence to Rev. Burris in his work.

Rev. C. R. Thayer of the Third U. P. church introduced Rev. Andrew I. Sabak, pastor of the St. Nicholas Russian Greek Catholic church.

Rev. W. W. Gilliland also presented Rev. James Menzie, pastor of the First Pentecostal church, Pearson street.

Devotions for the session were conducted by Rev. Robert L. McKibben of the Mahoning Presbyterian church, while the benediction was given by Rev. William Baggett of the Mahoning Methodist church.

War Veterans Start Training For State Police

HARRISBURG, Feb. 4.—(INS)—State Police Commissioner C. M. Wilhelm announced today that 20 veterans of World War II and begun a three month instruction course at the Hershey Training school.

Upon completion of the work at Hershey, recruits will be assigned to various troops for another three month period of class room instruction and field training before receiving permanent assignment, Wilhelm explained.

Two Pittsburgh Churches To Merge

PITTSBURGH, Feb. 4.—(INS)—Two of Pittsburgh's historic churches, the Christ Methodist and First Methodist—probably will be merged to form one of the wealthiest organizations of that denomination, it was disclosed today by church officials.

The proposed merger, approved three weeks ago by members of First Methodist, would bring together two of the oldest congregations in Pittsburgh. The church will have assets of well over two million dollars.

PENNSYLVANIA WEEK PLANNED

HARRISBURG, Feb. 4.—(INS).—State officials pushed plans today for "an intensive campaign to stimulate greater pride in the past and present greatness of Pennsylvania." Simultaneously, Gov. Edward Martin proclaimed the week beginning September 17 "Pennsylvania Week" and urged services and meetings be held "for the promotion of more widespread and deeper appreciation of Pennsylvania among its ten million citizens."

Commerce Secretary Floyd Chalfant headed a five-member committee of state officials planning the observance. He said churches, schools, service clubs, fraternal, civic and veterans' organizations would be asked to participate.

"The great achievements of the state in industry and the highly developed skills of its workers which have given Pennsylvania world renown will be emphasized in community exhibitions of Pennsylvania products," Chalfant said.

"Special attention will be given to emphasizing the importance of Pennsylvania's historic shrines, the splendor of its scenic beauty and its recreational advantages as a means of attracting visitors, tourists and vacationists from nearby and distant points," Chalfant added.

New Veterans Organization Born In State

PHILADELPHIA, Feb. 4.—(INS).—A new and potentially powerful World War II veterans organization was born today in Pennsylvania.

Fathered by a group of Philadelphia, all of whom were combat soldiers, the organization will be known as "28th Division Veterans, World War II."

It claims a potential membership in Pennsylvania and throughout the nation of more than 30,000 former members of the history-making 28th Infantry Division, the state's own National Guard unit that swept through some of the fiercest fighting in the European theater.

The first post has been established in Philadelphia and within the next two or three months additional posts will begin blossoming in every section of Pennsylvania.

One of the founders of the new veterans organization is Dr. Benedict Kimmelman, of Philadelphia, a silver star and bronze star winner.

Commercial Plane Makes Speed Record

NEW YORK, Feb. 4.—(INS).—A Lockheed Constellation flying the colors of Transcontinental and Western Air, Inc., today held the cross-country speed record for commercial planes.

The Constellation whipped into LaGuardia field yesterday just seven hours, 27 minutes and 48 seconds after taking off from Los Angeles. It carried 45 passengers and a crew of seven, hit a top speed of 375 miles an hour, and averaged 334.1 mph over the 2,474-mile route.

Jack Frye, TWA president, piloted the ship.

Lady's Stomach Was Like A Gas Factory; Meals Turned To Gas

One lady said recently that her stomach used to be like a "gas factory." That is, when she ate a meal it seemed to turn right into gas. She was always bloated, had awful stomach gas pains, daily headaches and constant irregular bowel action. Now, however, this lady says she is FREE OF STOMACH GAS and she says the change is due to taking ERB-HELP. Her meals agree with her. No gas or bloating after eating. Headaches and constipation are gone. "Oh! what relief!" states this lady. "Why don't other gas and constipation sufferers get ERB-HELP?"

ERB-HELP contains 12 Great Herbs, they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get ERB-HELP. Sold by All Drug Stores here in New Castle.
